What our patients say **About us**

Mr. Steve Hoareau

Asiri Heart Centre

“ I have been with Asiri Hospital for the past 3 weeks. I came here because I have blocked arteries. Ever since I arrived here, I was warmly welcomed by the nurses and the staff. They attempted to provide everything I need in the room. The room is similar to a hotel, in a sense that it is spacious, you have internet facility, you can order your food to the room... you can even negotiate what you want with the cook, which is something fantastic.

Healthwise, I really enjoy how they operate things here. I had the chance to talk to the consultant one-to-one. He really answered all my questions regarding the doubts I had and going into the theatre room I was confident because I was relaxed. After the surgery he came to the room and gave me the news I was completely cured. I feel very good now compared to when I came in. I would recommend anybody having surgery to come to this hospital because of the quality of service they gave to me.”
